Team Talk Template

Structure your pre-match, half-time and full-time talks.

A good team talk is short, clear and positive. Plan a few key messages for each moment of the game rather than a long speech. Use this sheet to prepare beforehand and to keep your half-time points focused when it matters.

Opponent: _____

Date: _____

Competition: _____

Pre-match (set the tone & 2-3 key messages)

Half-time (keep / change / one clear focus)

Full-time (one positive + one to work on)

Keep it to three

Players remember two or three things, not ten. Lead with something positive, give one clear tactical point, and finish with belief. Calm and clear beats loud and long, especially with young players.
